ViQi Voice Control

Stay eyes-up and focused forward

Operate your radio using simple voice commands.

Details

While it's easy to change settings on your smart radio using the traditional hard controls or the touchscreen soft controls, there are situations where you need to keep your eyes up and stay focused on your environment.

Using ViQi Voice Control, you can operate the radio with your voice. From switching channel and zone, to adjusting the volume, to changing your audio profile and tagging evidential video, all you need to do is press and hold the ViQi button, and speak into the mic.

There are 17 available actions, each accessible using several intuitive commands. With multiple options, you'll find a ViQi command to suit you.

ViQi Voice Control is optimized for public safety situations, and performs well in extreme high-noise environments. The 3-dot buttons on APX NEXT series, APX N70 series, and the SVX Video Remote Speaker Microphone (VRSM) are configured as the ViQi button by default. Through RadioCentral™, the ViQi function can be assigned to any other programmable control except the purple "monitor" button.

Benefits

First responders do not have to look down at the touchscreen, or concentrate on the position of the hard controls. All changes can be done eyes-up and without distraction.

Compatible products

- APX NEXT series
- APX N70
- APX N70 XE

Dependencies

- Radio Firmware: R01.00.00 or later

Infrastructure impact

- None.

Security

- ViQi button must be pressed when commands are issued. There is no "wake word" requiring an open mic.

Delivery

- Optional feature

Ordering information

- ViQi Voice Control H-Option: QA09028
- Included in Core Trunking Bundle: BD00001AA

First responders do not have to look down at the touchscreen, or concentrate on the position of the hard controls.

ZONE AND CHANNEL CHANGE COMMANDS
"Change zone to Z channel to C"
"Change zone to Z and channel to C"
"Change to zone Z channel C"
"Change to zone Z and channel C"
"Zone to Z channel to C"
"Zone to Z and channel to C"
"Zone Z channel C"
"Change zone to Z channel C"
"Switch zone to Z channel to C"
"Switch zone to Z and channel to C"
"Switch to zone Z channel C"
"Switch to zone Z and channel C"
"Go to zone Z channel C"
"Go to zone Z and channel C"
RESPONSE:
Either: "<zone name>, <channel name>"
Or: "Already on <zone name>, <channel name>"

ZONE CHANGE COMMANDS
"Change zone to Z"
"Change to zone Z"
"Switch to zone Z"
"Switch zone to Z"
"Go to zone Z"
"Zone Z"
RESPONSE:
Either: "<zone name>, <channel name>"
Or: "Already on <zone name>"

CHANNEL CHANGE COMMANDS
"Change channel to C"
"Change to channel C"
"Switch to channel C"
"Switch channel to C"
"Go to channel C"
"Channel C"
RESPONSE:
Either: "<channel name>"
Or: "Already on <channel name>"

ZONE QUERY COMMANDS
"What is my zone?"
"Current zone"
"Zone"
"What is my zone and channel?"
"Current zone and channel"
"Zone and channel"
"What is my current zone and channel?"
RESPONSE:
"<zone name>, <channel name>"

CHANNEL QUERY COMMANDS
"What is my channel?"
"Current channel"
"Channel"
"What is my current channel?"
"What is my zone and channel?"
"Current zone and channel"
"Zone and channel"
"What is my current zone and channel?"
RESPONSE (CHANNEL):
"<channel name>"
RESPONSE (ZONE AND CHANNEL):
"<zone name>, <channel name>"

VOLUME CHANGE COMMANDS

"Volume V" (17 variations)
V is 1-10 in 10% increments, or
Min, low, minimum (=10%)
Medium (=50%)
High, max, maximum (=100%).
"V volume" (7 variations)
V is low, min, minimum (=10%)
Medium (=50%)
High, max, or maximum (=100%)
RESPONSE:
Either: "Volume <#>" (1 to 10)
Or: "Volume already <#>"

VOLUME QUERY COMMANDS

"Volume"
"What is my volume?"
"Current volume"
"What is my current volume?"
"Volume check"
RESPONSE:
"Volume <#>" (1 to 10)

RADIO PROFILE CHANGE COMMANDS

"Change to P profile"
"P profile"
"P mode"
"Switch to P profile"
"Go to P profile"
"Change to P mode"
"Switch to P mode"
"Go to P mode"
RESPONSE:
Either: "<profile name> profile"
Or: "already on <profile name> profile"

BATTERY QUERY COMMANDS

"What is my battery status?"
"What is my battery level?"
"Battery level"
"Battery status"
"Battery"
"Battery check"
"What is my battery?"
RESPONSE:
"<value>", Value = percentage, 0 to 100%

TIME QUERY COMMANDS

"What is the time"
"Current time"
"Time check"
"Time"
"What time is it"
"What's the time"
RESPONSE:
(Military) hh:mm
(Standard) hh:mm am or hh:mm pm
Follows the format of time selected on the radio
