

SVX subscription offers

Transparency shouldn't come at a high price.

As the requirement for law enforcement video systems continues to grow, the obstacles to acquisition remain the same. Raising funding and securing grants is difficult and time-consuming. Data storage and system maintenance costs are hard to predict. And video technology continues to mature, making a big investment potentially risky.

Motorola Solutions helps you overcome these obstacles. Our SVX-as-a-Service offering enables you to deploy a new video remote speaker microphone (VRSM) solution and start using it immediately with a simple 3- or 5-year pay-as-you-go program. With comprehensive services included, you'll have all the support you need for success.

SVX-AS-A-SERVICE PACKAGE

Contract length	3 or 5 years
Included technology and accessories	SVX body camera, mount (magnetic jacket, magnetic shirt, MOLLE, shirt clip, or locking), optional spare battery
Included training and installation	Virtual on-demand learning
Services	Device managed services (essential), accidental damage, advanced hardware replacement, technical phone support

We also offer a separate battery subscription service for \$4 per month, which allows one battery refresh per SVX every two years. This can be ordered along a SVX-as-a-Service offering or an upfront SVX purchase, ensuring peak performance for your devices and minimizing operational disruption.
