

VB400 subscription offers

Transparency shouldn't come at a high price.

As the requirement for law enforcement video systems continues to grow, the obstacles to acquisition remain the same. Raising funding and securing grants is difficult and time-consuming. Data storage and system maintenance costs are hard to predict. And video technology continues to mature, making a big investment potentially risky.

Motorola Solutions helps you overcome these obstacles. Our VB400-as-a-Service offering enables you to deploy a new camera system and start using it immediately under a simple 5-year pay-as-you-go program. Everything you need is provided, including your camera system, required accessories, management software, video storage, service and support. And if you already have content in another evidence management system, we can work with you to migrate your video material to the new platform.

VB400-AS-A-SERVICE PACKAGE (\$29 PER MONTH)
