

EU Data Act Disclosures

Motorola Solutions Connected Products and Related Services

Data Holder Identity

In most circumstances, Motorola Solutions is the processor of data performing services on behalf of the Controller / Data Holder. To the extent that Motorola Solutions is the Data Holder, on behalf of itself and its affiliated entities, any questions, requests, or complaints as permitted under the EU Data Act can be made [this request form](#).

Volume

The volume of data collected or otherwise processed by the products and services is within the control of the individual user.

Product Name	Connected Product	Related Service	Connected Product Data Type	Related Services Data Type	Data Format	Connected Product Collection frequency	Related Service Collection frequency	Connected Product Data retention	Related Service Data retention	Connected Product Storage location	Related Service Storage location	User's ability to access, retrieve, and/or erase data from Connected Product	User's ability to access, retrieve, and/or erase from Related Service	MSI use of readily available Related Service data
ActiveEye Managed Security Services	Yes	Yes	Data Logs & Other Reporting, User Account Information, Employment Information, Contact Information, Personal Device Identifiers, Sensory and Electronic Information, Personal Identification, Geolocation, Browsing Information	Data Logs & Other Reporting, User Account Information, Employment Information, Contact Information, Personal Device Identifiers, Sensory and Electronic Information, Personal Identification, Geolocation, Browsing Information	Web application, Database	Continuous (real-time or near real-time collection during product/service operation)	Continuous (real-time or near real-time collection during product/service operation)	Stored for a set period of time	Stored for a set period of time	On-Device Storage, Remote Server Storage	On-Prem Storage, Remote Server Storage	Erasure of data is function of admin privileges, Access to or retrieval of the data is a function of product	Erasure of data is function of admin privileges, Access to data is a function of Related Service	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Provides to Supplier, MSI Provides To Third Party With Agreement of Customer, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
APX / N30 / N50*	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Contact Information, Personal Device Identifiers, Geolocation		Geospatial, Document, Database	On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Space available		On-Device Storage		Access to or retrieval of the data is a function of product, Erasure of data is a function of product		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
APX NEXT / N70*	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information, Browsing Information		Geospatial, Document, Image, Video, Web application, Database	On-demand (data collected only when explicitly requested by the user or administrator), Periodic (data collected at regular intervals, e.g., hourly, daily, weekly)		Stored for a set period of time, Customer Managed, Space available	On-Device Storage, Remote Server Storage	Access to or retrieval of the data is a function of product, Erasure of data is a function of product		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Create New Products and Services		
ASTRO AXS Console*	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Browsing Information, Personal Device Identifiers, Contact Information, Education & Skills, Personal Identification		Web application, Audio, Database, Document	On-demand (data collected only when explicitly requested by the user or administrator)		Store and Forward, Space available, Ephemeral		On-Device Storage, Remote Server Storage		Access to or retrieval of data through other means, Erasure of data through other means, Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges, Erasure of data is a function of product, Access to or retrieval of the data is a function of product		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
ASTRO CORE (Infrastructure)*	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Contact Information, Personal Device Identifiers, Biometric, Personal Identification, Geolocation, Employment Information, Education & Skills, Browsing Information		Geospatial, Document, Audio, Database, Image, Web application	On-demand (data collected only when explicitly requested by the user or administrator)		Stored for a set period of time, Space available, Customer Specified Time, Customer Managed	On-Device Storage	Access to or retrieval of data is function of admin privileges, Erasure of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services		
ASTRO CPS/RM - Hosted RM*	No	Yes		User Account Information, Data Logs & Other Reporting, Personal Device Identifiers, Personal Identification, Contact Information, Browsing Information	Database, Document		Continuous (real-time or near real-time collection during product/service operation), On-demand (data collected only when explicitly requested by the user or administrator)		Stored for a set period of time after contract end, Customer Managed		On-Prem Storage, Remote Server Storage		Erasure of data is a function of the Related Service, Access to data is function of admin privileges, Access to data is a function of Related Service, Erasure of data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
ASTRO CPS/RM - On-Prem*	No	Yes		Data Logs & Other Reporting, Personal Device Identifiers, Contact Information, Browsing Information	Database, Document		On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed		On-Prem Storage		Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
ASTRO D-Series / G-Series Site*	Yes	No				Periodic (data collected at regular intervals, e.g., hourly, daily, weekly), On-demand (data collected only when explicitly requested by the user or administrator), Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation), One-time (data collected once, such as during initial setup or registration)		Stored for a set period of time, Space available, Ephemeral, Store and Forward		On-Device Storage		Access to or retrieval of data is function of admin privileges, Erasure of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
			User Account Information, Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information, Personal Identification	Document, Database, Web application										
ASTRO SmartConnect*	No	Yes		Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Contact Information, Browsing Information	Geospatial, Document, Audio, Database, Image, Video, Web application		Event-driven (data collected only when specific user actions or system events occur)		Stored for a set period of time		Remote Server Storage		Erasure of data is function of admin privileges, Access to data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services
Avigilon Alta Cameras	Yes	No				On-demand (data collected only when explicitly requested by the user or administrator), Continuous (real-time or near real-time collection during product/service operation)		Stored for a set period of time, Customer Specified Time, Space available, Customer Managed		On-Device Storage, Remote Server Storage		Access to or retrieval of data is function of admin privileges, Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Erasure of data is function of admin privileges, Erasure of data through other means, Access to or retrieval of data through other means		MSI Uses To Troubleshoot, MSI Uses To Perform Analytics, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer

Avigilon Alta Cameras	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Personal Device Identifiers, Biometric, Contact Information, Government Identifiers, Browsing Information		Video, Audio, Database	Continuous (real-time or near real-time collection during product/service operation), On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Customer Specified Time, Space available, Stored for a set period of time		On-Device Storage, Remote Server Storage		Erasure of data through other means, Erasure of data is function of admin privileges, Access to or retrieval of data through other means, Access to or retrieval of data is function of admin privileges, Erasure of data is a function of product		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
Avigilon Alta Cloud Connector	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Personal Device Identifiers, Biometric, Contact Information, Government Identifiers, Browsing Information		Audio, Database, Video, Web application	On-demand (data collected only when explicitly requested by the user or administrator), Continuous (real-time or near real-time collection during product/service operation)		Space available, Customer Specified Time, Customer Managed, Stored for a set period of time		On-Device Storage, Remote Server Storage		Access to or retrieval of data is function of admin privileges, Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Erasure of data through other means, Erasure of data is function of admin privileges, Access to or retrieval of data through other means		MSI Uses To Perform Analytics, MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
Avigilon Alta Video Intercom Reader Pro	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Employment Information, Personal Device Identifiers, Personal Identification, Geolocation, Contact Information, Government Identifiers, Browsing Information		Video, Image, Audio, Database	Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)		Stored for a set period of time after contract end, Stored for a set period of time		On-Device Storage, Remote Server Storage		Erasure of data through other means, Access to or retrieval of data is function of admin privileges		MSI Provides To Third Party With Agreement of Customer, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
Avigilon Alta Video Reader Pro	Yes	No	Data Logs & Other Reporting, User Account Information, Personal Device Identifiers, Sensory and Electronic Information, Geolocation, Contact Information, Government Identifiers, Browsing Information		Database, Video, Image	Continuous (real-time or near real-time collection during product/service operation), Event-driven (data collected only when specific user actions or system events occur)		Stored for a set period of time, Stored for a set period of time after contract end		On-Device Storage, Remote Server Storage		Access to or retrieval of data is function of admin privileges, Erasure of data through other means		MSI Provides To Third Party With Agreement of Customer, MSI Uses To Perform Analytics, MSI Uses To Troubleshoot
Avigilon Unity Cloud Services	Yes	Yes	Data Logs & Other Reporting, User Account Information, Browsing Information, Contact Information, Personal Device Identifiers, Biometric, Personal Identification, Geolocation, Government Identifiers, Sensory and Electronic Information	Data Logs & Other Reporting, User Account Information, Browsing Information, Contact Information, Personal Device Identifiers, Biometric, Personal Identification, Geolocation, Government Identifiers, Sensory and Electronic Information	Web application, Database	Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)	Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)	Ephemeral, Space available, Customer Specified Time	Ephemeral	On-Device Storage, Remote Server Storage	On-Prem Storage, Remote Server Storage	Access to or retrieval of the data is a function of product	Access to data is a function of Related Service	MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Create New Products and Services, MSI Uses To Perform Analytics, MSI Uses To Troubleshoot
Battery Fleet Manager*	No	Yes		Personal Device Identifiers, Contact Information, Data Logs & Other Reporting	Database, Document		On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed		On-Prem Storage		Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
Calipsa Products	No	Yes		Data Logs & Other Reporting, User Account Information, Browsing Information, Background Checks, Personal Device Identifiers, Government Identifiers, Sensory and Electronic Information, Biometric, Contact Information, Personal Identification	Video, Image, Web application, Database, Document		Continuous (real-time or near real-time collection during product/service operation)		Stored for a set period of time		Remote Server Storage		Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Provides to Supplier, MSI or MSI Suppliers Uses To Train AI Models, MSI or MSI Suppliers Uses To Create New Products and Services, MSI Provides To Third Party With Agreement of Customer, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
Cloud Software Hub (CSH)	Yes	No	Data Logs & Other Reporting, Personal Device Identifiers, Personal Identification, Contact Information, Browsing Information		Web application	Event-driven (data collected only when specific user actions or system events occur), On-demand (data collected only when explicitly requested by the user or administrator)		Stored for a set period of time		Remote Server Storage		Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot
ComparisonManager Cloud	No	Yes	Data Logs & Other Reporting, User Account Information, Browsing Information, Background Checks, Personal Identification, Personal Device Identifiers, Sensory and Electronic Information, Healthcare and Physical Characteristics, Biometric, Contact Information, Government Identifiers	Data Logs & Other Reporting, User Account Information, Browsing Information, Background Checks, Personal Identification, Personal Device Identifiers, Sensory and Electronic Information, Healthcare and Physical Characteristics, Biometric, Contact Information, Government Identifiers	Document, Image, Web application, Database	Not a Connected Product	Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)	Not Applicable; not a Connected Product	Stored for a set period of time, Inherited from a parent organization or team, Customer Managed, Stored for a set period of time after contract end, Customer Specified Time	Remote Server Storage	On-Prem Storage	Not a Connected Product	Erasure of data is function of admin privileges, Erasure of data is a function of the Related Service, Access to data is function of Related Service, Access to data is a function of Related Service	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
CRYPTR	Yes	No	Data Logs & Other Reporting, Personal Device Identifiers		Document	On-demand (data collected only when explicitly requested by the user or administrator)		Customer Specified Time		On-Device Storage		Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
Curve (Curve) PCR Device*	Yes	Yes	User Account Information, Sensory and Electronic Information, Personal Device Identifiers, Contact Information, Personal Identification	User Account Information, Sensory and Electronic Information, Personal Device Identifiers, Contact Information, Personal Identification	Document, Audio, Database, Web application	On-demand (data collected only when explicitly requested by the user or administrator), Periodic (data collected at regular intervals, e.g., hourly, daily, weekly), One-time (data collected once, such as during initial setup or registration), Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)	Periodic (data collected at regular intervals, e.g., hourly, daily, weekly), One-time (data collected once, such as during initial setup or registration), On-demand (data collected only when explicitly requested by the user or administrator), Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)	Customer Managed	Customer Managed	On-Device Storage, Remote Server Storage	On-Prem Storage, Remote Server Storage	Access to or retrieval of data is function of admin privileges, Erasure of data is a function of product, Access to or retrieval of the data is a function of product, Erasure of data is function of admin privileges	Erasure of data is function of admin privileges, Access to data is a function of Related Service, Access to data is function of admin privileges, Erasure of data is a function of the Related Service	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services
Dimetra (Tetra Infrastructure)*	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Browsing Information, Personal Device Identifiers, Contact Information		Geospatial, Document, Audio, Database, Web application	On-demand (data collected only when explicitly requested by the user or administrator)		Stored for a set period of time, Space available, Customer Managed, Store and Forward		On-Device Storage, Remote Server Storage		Access to or retrieval of data is function of admin privileges, Erasure of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
DVR-LX*	Yes	No	Data Logs & Other Reporting, Personal Device Identifiers		Web application, Audio, Document	On-demand (data collected only when explicitly requested by the user or administrator)		Space available, Ephemeral		On-Device Storage		Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
Halo Cloud*	No	Yes		User Account Information, Sensory and Electronic Information, Data Logs & Other Reporting, Personal Device Identifiers, Contact Information, Employment Information, Personal Identification	Sensor Data, Web application, Database		Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)		Stored for a set period of time, Stored for a set period of time after contract end		Remote Server Storage		Access to data is function of admin privileges, Erasure of data through other means	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Perform Analytics, MSI Uses To Troubleshoot

Halo Smart Sensors (3C-PC and Amplify)*	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Employment Information, Personal Device Identifiers, Personal Identification, Contact Information		Sensor Data, Audio, Database	On-demand (data collected only when explicitly requested by the user or administrator)		some data stored indefinitely until hardware is reset, Ephemeral		On-Device Storage		Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot
ION (Mackenzie) PCR Device*	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information		Audio, Image, Video, Web application, Database, Document	Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation), On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Store and Forward, Space available		On-Device Storage		Erasure of data is a function of product, Erasure of data is function of admin privileges, Erasure of data through other means, Access to or retrieval of data is function of admin privileges		MSI Uses To Perform Analytics, MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
L6A & LD LPR Cameras	Yes	No	Data Logs & Other Reporting, Personal Device Identifiers, Biometric, Geolocation, Healthcare and Physical Characteristics, Contact Information, Government Identifiers, Browsing Information, Sensory and Electronic Information, Personal Identification		Image, Web application, Document, Database	Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)		Customer Managed, Inherited from a parent organization or team, Customer Specified Time, Store and Forward, Space available, Stored for a set period of time, Stored for a set period of time after contract end		On-Device Storage, Remote Server Storage		Erasure of data is function of admin privileges, Erasure of data through other means, Access to or retrieval of the data is a function of product, Access to or retrieval of data through other means, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
LEX L11 (LTE Android PTT)*	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Contact Information, Personal Device Identifiers, Biometric, Geolocation, Browsing Information		Audio, Image, Web application, Document, Geospatial, Database	Event-driven (data collected only when specific user actions or system events occur), On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Space available		On-Device Storage		Access to or retrieval of the data is a function of product, Erasure of data is a function of product		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
M500 In-Car Video System	Yes	No	Sensory and Electronic Information, Data Logs & Other Reporting, Personal Device Identifiers, Healthcare and Physical Characteristics, Unknown, Biometric, Personal Identification, Geolocation, Government Identifiers, Employment Information		Video, Audio	Continuous (real-time or near real-time collection during product/service operation), On-demand (data collected only when explicitly requested by the user or administrator)		Store and Forward, Space available		On-Device Storage		Erasure of data is function of admin privileges, Erasure of data is a function of product, Access to or retrieval of the data is a function of product		MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
M500 Interview Recording System	Yes	No	Sensory and Electronic Information, Data Logs & Other Reporting, Browsing Information, Personal Device Identifiers, Healthcare and Physical Characteristics, Unknown, Biometric, Personal Identification, Geolocation, Contact Information, Employment Information		Audio, Video	Continuous (real-time or near real-time collection during product/service operation), On-demand (data collected only when explicitly requested by the user or administrator)		Store and Forward, Space available		On-Device Storage		Erasure of data is a function of product, Access to or retrieval of the data is a function of product, Erasure of data is function of admin privileges		MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
M500E	Yes	No	Sensory and Electronic Information, Data Logs & Other Reporting, Personal Device Identifiers, Healthcare and Physical Characteristics, Unknown, Personal Identification, Geolocation, Government Identifiers		Video, Audio	On-demand (data collected only when explicitly requested by the user or administrator), Continuous (real-time or near real-time collection during product/service operation)		Space available, Store and Forward		On-Device Storage		Erasure of data is function of admin privileges, Access to or retrieval of the data is a function of product, Erasure of data is a function of product		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Improve Products and Services
MOTOTRBO Core Radio Infrastructure (PCR LMR)*	Yes	No	Data Logs & Other Reporting, User Account Information, Personal Identification, Sensory and Electronic Information, Employment Information, Browsing Information, Personal Device Identifiers, Geolocation, Contact Information		Audio, Web application, Database, Reports	On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Ephemeral, Space available, Stored for a set period of time		On-Device Storage		Erasure of data is function of admin privileges, Erasure of data is a function of product, Access to or retrieval of the data is a function of product, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Provides To Third Party With Agreement of Customer, MSI or MSI Suppliers Uses To Create New Products and Services
Orchestrate Service*	No	Yes		User Account Information, Data Logs & Other Reporting, Employment Information, Contact Information, Personal Device Identifiers, Sensory and Electronic Information, Personal Identification, Government Identifiers	Web application, Document, Database		Continuous (real-time or near real-time collection during product/service operation)				Remote Server Storage		Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services
PartnerHub / CustomerHub*	No	Yes		Data Logs & Other Reporting, User Account Information, Financial, Browsing Information, Employment Information, Contact Information, Personal Device Identifiers, Education & Skills, Travel & Expense, Personal Identification, Government Identifiers, Commercial Information, Professional Experience & Affiliations, Social	Document, Database, Audio, Image, Video, Web application		Continuous (real-time or near real-time collection during product/service operation)				Remote Server Storage		Erasure of data is function of admin privileges, Access to data is function of admin privileges	MSI Uses To Troubleshoot, MSI Uses To Perform Analytics, MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Train AI Models, MSI Provides to Supplier
PCR Bus. & Comm. ODM Radios - Valencia*	Yes	No		Personal Identification, Personal Device Identifiers, Data Logs & Other Reporting	Audio, Database, Document	On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed		On-Device Storage		Access to or retrieval of data through other means, Erasure of data through other means		MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
PCR RM/CPS*	No	Yes		Data Logs & Other Reporting, Contact Information, Personal Device Identifiers, Personal Identification, Education & Skills, Browsing Information	Document, The file store on local computer, Database		Event-driven (data collected only when specific user actions or system events occur)				On-Prem Storage		Erasure of data is function of admin privileges, Access to data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
PDR8000*	Yes	No		Data Logs & Other Reporting, Personal Device Identifiers	Document, Web application, Audio	Event-driven (data collected only when specific user actions or system events occur)		Customer Managed		On-Device Storage		Erasure of data is a function of product, Access to or retrieval of the data is a function of product		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
Pelco Cameras (Elevate-Enabled)	Yes	No		User Account Information, Sensory and Electronic Information, Data Logs & Other Reporting, Browsing Information, Personal Device Identifiers, Biometric, Geolocation, Contact Information, Personal Identification	Document, Database, Audio, Video, Image, Web application	Event-driven (data collected only when specific user actions or system events occur)		Customer Managed		On-Device Storage, Remote Server Storage		Access to or retrieval of data is function of admin privileges, Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Erasure of data is function of admin privileges, Access to or retrieval of data through other means		MSI Uses To Perform Analytics, MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services
Pelco Cameras (non-Elevate)	Yes	No		User Account Information, Sensory and Electronic Information, Data Logs & Other Reporting, Personal Device Identifiers, Biometric, Geolocation, Contact Information	Video, Audio, Database, Document	On demand when customer contacts MSI for technical support.		Customer Managed		On-Device Storage		Erasure of data is function of admin privileges, Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Access to or retrieval of data is function of admin privileges		
Pelco Elevate	No	Yes		Data Logs & Other Reporting, User Account Information, Browsing Information, Personal Device Identifiers, Healthcare and Physical Characteristics, Unknown, Sensory and Electronic Information, Biometric, Geolocation, Contact Information, Personal Identification	Database, Document, Image, Video, Web application		Event-driven (data collected only when specific user actions or system events occur)				Remote Server Storage		Access to data is a function of Related Service, Erasure of data through other means	MSI Uses To Troubleshoot, MSI Uses To Perform Analytics, MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer

R3 (Nile) PCR Device*	Yes	No	Personal Device Identifiers, Data Logs & Other Reporting, Contact Information		Database, Document	On-demand (data collected only when explicitly requested by the user or administrator)		Space available		On-Device Storage	Erasure of data is function of admin privileges, Erasure of data is a function of product, Access to or retrieval of the data is a function of product, Access to or retrieval of data is function of admin privileges		MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
						On-demand (data collected only when explicitly requested by the user or administrator)							
R7 (Rajang) Collaboration Application - PCR*	No	Yes		Data Logs & Other Reporting, Contact Information, Personal Device Identifiers	Database, Document					On-Prem Storage		Erasure of data is a function of the Related Service, Access to data is a function of Related Service	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
R7 (Rajang) PCR Device*	Yes	No				On-demand (data collected only when explicitly requested by the user or administrator), Event-driven (data collected only when specific user actions or system events occur)		Space available		On-Device Storage			MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Perform Analytics, MSI Uses To Troubleshoot
			Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information		Document, Web application, Audio, Image						Erasure of data is a function of product, Access to or retrieval of the data is a function of product		
RadioCentral Cloud Native (Public Safety)*	No	Yes		Data Logs & Other Reporting, Personal Device Identifiers, Personal Identification, Contact Information, Browsing Information	Web application, Document, Database		Event-driven (data collected only when explicitly requested by the user or administrator)			Remote Server Storage		Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot
						Periodic (data collected at regular intervals, e.g., hourly, daily, weekly), On-demand (data collected only when explicitly requested by the user or administrator), Event-driven (data collected only when specific user actions or system events occur)							
RadioCentral Insights*	No	Yes		Data Logs & Other Reporting, Personal Device Identifiers, Geolocation, Contact Information, Browsing Information	Geospatial, Document, Database, Web application		Event-driven (data collected only when specific user actions or system events occur)			Remote Server Storage		Access to data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
RadioTracker by Motorola Solutions*	Yes	No	Data Logs & Other Reporting, User Account Information, Browsing Information, Personal Device Identifiers, Sensory and Electronic Information, Personal Identification, Geolocation, Contact Information		Database, Geospatial, Document, Web application	Event-driven (data collected only when specific user actions or system events occur)		Stored for a set period of time		On-Device Storage		Access to or retrieval of the data is a function of product	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
Secure Communications Central Basic v2 (SCC Basic formerly Key Management)	Yes	Yes	Data Logs & Other Reporting, Browsing Information, Personal Device Identifiers, Personal Identification, Contact Information	Data Logs & Other Reporting, Browsing Information, Personal Device Identifiers, Personal Identification, Contact Information	Web application, Database, Document	Continuous (real-time or near real-time collection during product/service operation)	Continuous (real-time or near real-time collection during product/service operation), Event-driven (data collected only when specific user actions or system events occur)	Stored for a set period of time after contract end		On-Device Storage, Remote Server Storage	On-Prem Storage, Remote Server Storage	Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Erasure of data through other means, Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges	MSI Uses To Troubleshoot, MSI Uses To Perform Analytics, MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Create New Products and Services
						Event-driven (data collected only when specific user actions or system events occur), On-demand (data collected only when explicitly requested by the user or administrator)							
SmartControl Mobile Application	No	Yes		Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Personal Identification, Contact Information	Video, Audio							Erasure of data through other means, Access to data is a function of Related Service	MSI Uses To Perform Analytics, MSI Uses To Troubleshoot
Stryker Tetra Radio*	Yes	No	User Account Information, Data Logs & Other Reporting, Sensory and Electronic Information, Employment Information, Contact Information, Browsing Information, Personal Identification, Personal Device Identifiers, Biometric, Geolocation		Video, Image, Audio, Web application, Document, Geospatial, Database	On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Space available		On-Device Storage	Erasure of data is function of admin privileges, Erasure of data through other means, Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Access to or retrieval of data through other means, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot, MSI Provides to Supplier, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
TALKABOUT App (Gen2)*	No	Yes					Periodic (data collected at regular intervals, e.g., hourly, daily, weekly), Event-driven (data collected only when specific user actions or system events occur), On-demand (data collected only when explicitly requested by the user or administrator), One-time (data collected once, such as during initial setup or registration), Continuous (real-time or near real-time collection during product/service operation)			On-Prem Storage, Remote Server Storage		Erasure of data is function of admin privileges, Access to data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
						One-time (data collected once, such as during initial setup or registration)							
TETRA Storm App*	No	Yes		Data Logs & Other Reporting, Contact Information, Personal Identification, Education & Skills, Personal Device Identifiers, Sensory and Electronic Information	Document, Database					On-Prem Storage		Erasure of data is a function of the Related Service, Access to data is a function of Related Service	MSI or MSI Suppliers Uses To Improve Products and Services
Tetra Subscriber Firmware MRXXXX.X*	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Contact Information, Personal Device Identifiers, Geolocation, Healthcare and Physical Characteristics		Database, Document	On-demand (data collected only when explicitly requested by the user or administrator)		Space available		On-Device Storage	Erasure of data is function of admin privileges, Access to or retrieval of the data is a function of product, Erasure of data is a function of product, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
						On-demand (data collected only when explicitly requested by the user or administrator)							Access to or retrieval of data is function of admin privileges, Erasure of data is function of admin privileges
Tiger Tetra/LTE Infrastructure*	Yes	No	Data Logs & Other Reporting, User Account Information, Sensory and Electronic Information, Browsing Information, Personal Device Identifiers, Contact Information		Database, Document, Geospatial, Web application, Audio	On-demand (data collected only when explicitly requested by the user or administrator)		Space available, Stored for a set period of time, Store and Forward, Customer Managed		On-Device Storage, Remote Server Storage		Access to or retrieval of data is function of admin privileges, Erasure of data is function of admin privileges	
TLK 25 (Van Gogh) PCR Device*	Yes	No	Data Logs & Other Reporting, Personal Device Identifiers, Geolocation, Contact Information, Browsing Information, Biometric		Document, Geospatial, Audio	On-demand (data collected only when explicitly requested by the user or administrator), Periodic (data collected at regular intervals, e.g., hourly, daily, weekly)		Ephemeral, Space available		On-Device Storage		Erasure of data is a function of product, Access to or retrieval of the data is a function of product	MSI or MSI Suppliers Uses To Improve Products and Services, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
V200 Body Worn Camera	Yes	No	Sensory and Electronic Information, Data Logs & Other Reporting, Workplace Welfare, Personal Device Identifiers, Healthcare and Physical Characteristics, Biometric, Personal Identification		Video, Audio	On-demand (data collected only when explicitly requested by the user or administrator)		Customer Managed, Store and Forward				Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges	MSI Uses To Troubleshoot

V500 Body Camera	Yes	No	Personal Identification, Data Logs & Other Reporting, Sensory and Electronic Information, Family Information, Employment Information, Contact Information, Background Checks, Personal Device Identifiers, Healthcare and Physical Characteristics, Unknown, Biometric, Geolocation, Financial, Browsing Information, Religion		Geospatial, Video, Audio	Event-driven (data collected only when specific user actions or system events occur) MSI does not gather data from customer installations., On-demand (data collected only when explicitly requested by the user or administrator)		Store and Forward		On-Device Storage		Access to or retrieval of data through other means, Erasure of data through other means		
VB400	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Biometric, Geolocation, Contact Information, Employment Information		Audio, Video, Image, Geospatial			Store and Forward		On-Device Storage		Erasure of data through other means, Access to or retrieval of data through other means		MSI Uses To Troubleshoot, MSI Uses To Perform Analytics, MSI or MSI Suppliers Uses To Improve Products and Services
VehicleManager	No	Yes		Data Logs & Other Reporting, Browsing Information, Employment Information, Personal Device Identifiers, Sensory and Electronic Information, Healthcare and Physical Characteristics, Biometric, Personal Identification, Geolocation, Government Identifiers, Contact Information	Document, Geospatial, Database, Image, Web application		Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)				Remote Server Storage		Erasure of data is function of admin privileges, Access to data is a function of Related Service, Erasure of data through other means, Access to data through other means, Access to data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services
VehicleManager Enterprise	No	Yes		Data Logs & Other Reporting, Browsing Information, Employment Information, Healthcare and Physical Characteristics, Biometric, Personal Identification, Geolocation, Government Identifiers, Sensory and Electronic Information, Contact Information	Geospatial, Document, Database, Image, Web application		Continuous (real-time or near real-time collection during product/service operation), Event-driven (data collected only when specific user actions or system events occur)				Remote Server Storage		Erasure of data is function of admin privileges, Access to data through other means, Access to data is a function of Related Service, Access to data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services
VideoManager EX	No	Yes		Data Logs & Other Reporting, Sensory and Electronic Information, Employment Information, Browsing Information, Personal Device Identifiers, Healthcare and Physical Characteristics, Unknown, Biometric, Personal Identification, Geolocation, Contact Information	Document, Database, Audio, Image, Video		Event-driven (data collected only when specific user actions or system events occur), Continuous (real-time or near real-time collection during product/service operation)						Access to data is a function of Related Service, Erasure of data is a function of the Related Service	MSI Uses To Perform Analytics, MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Improve Products and Services
VRX1000	Yes	No	Data Logs & Other Reporting, Personal Device Identifiers		Video, Web application, Database	On-demand (data collected only when explicitly requested by the user or administrator)		Space available, Ephemeral		On-Device Storage		Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges		MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
VT100	Yes	No	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Biometric, Contact Information, Employment Information		Audio, Video, Image	On-demand (data collected only when explicitly requested by the user or administrator), MSI does not gather data from customer installations.		Store and Forward		On-Device Storage		Access to or retrieval of data through other means, Erasure of data through other means		MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
WAVE - Critical Connect*	Yes	Yes	Data Logs & Other Reporting, User Account Information, Contact Information, Browsing Information, Personal Device Identifiers, Personal Identification	Data Logs & Other Reporting, User Account Information, Contact Information, Browsing Information, Personal Device Identifiers, Personal Identification	Database, Geospatial, Document, Web application, Audio, Image, Video	On-demand (data collected only when explicitly requested by the user or administrator)	Continuous (real-time or near real-time collection during product/service operation)	Space available, Customer Specified Time		On-Device Storage	Remote Server Storage	Access to or retrieval of data is function of admin privileges, Erasure of data is function of admin privileges	Erasure of data is function of admin privileges, Access to data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI or MSI Suppliers Uses To Improve Products and Services, MSI Uses To Troubleshoot, MSI Uses To Perform Analytics
WAVE - Unified Recorder Solution*	Yes	Yes	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information, Browsing Information	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information, Browsing Information	Document, Geospatial, Database	On-demand (data collected only when explicitly requested by the user or administrator)	Continuous (real-time or near real-time collection during product/service operation)	Customer Managed, Space available		On-Device Storage	Remote Server Storage	Erasure of data is a function of product, Access to or retrieval of data is function of admin privileges	Erasure of data is a function of the Related Service, Access to data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
Wave OnCloud Portal*	No	Yes		Data Logs & Other Reporting, User Account Information, Contact Information, Browsing Information, Personal Device Identifiers, Personal Identification, Geolocation, Education & Skills, Employment Information	Web application, Database, Document		Continuous (real-time or near real-time collection during product/service operation)				On-Prem Storage, Remote Server Storage		Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI or MSI Suppliers Uses To Perform Under Agreement With Customer, MSI Uses To Troubleshoot
WAVE Tactical*	Yes	Yes	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information, Personal Identification	Data Logs & Other Reporting, Sensory and Electronic Information, Personal Device Identifiers, Geolocation, Contact Information, Personal Identification	Audio, Document, Database	On-demand (data collected only when explicitly requested by the user or administrator)	On-demand (data collected only when explicitly requested by the user or administrator)	Customer Managed, Customer Specified Time, Stored for a set period of time, Space available		On-Device Storage	On-Prem Storage	Erasure of data is function of admin privileges, Access to or retrieval of data is function of admin privileges	Access to data is function of admin privileges, Erasure of data is function of admin privileges	MSI Uses To Troubleshoot, MSI or MSI Suppliers Uses To Perform Under Agreement With Customer
