INTRODUCING INTELLIGENT COMMUNICATIONS AS A SERVICE (ICaaS)

A new way to strengthen your agency's response capabilities with complementary intelligent applications

MOTOROLA SOLUTIONS

STRENGTHEN SAFETY WITH
INTELLIGENT COMMUNICATIONS (ICaaS)

Intelligent Communications as a Service (ICaaS) from Motorola Solutions is the best complement to your high performance mission critical radio communications network. It empowers and mobilizes public safety agencies with real-time intelligence and interoperability communications across devices and networks, providing greater situational awareness and response capabilities.

Provide your first responders with applications and services for the utmost security, resiliency and high performance, standards-compliant platform. Whether your agency needs core applications, add-ons or expand with complementary solutions, you'll find the right answer to your agency needs.

CORE APPLICATIONS AND SERVICES
This package is included with your base subscription:

WAVE™
Motorola's Broadband PTT solution across all your devices and networks.

MULTIMEDIA MESSAGING
Instantly send and receive text, audio clips, images location data and video.

INTEROPERABILITY
Includes unlimited licenses for LMR-Broadband interop.

HIGH ASSURANCE SERVICES (SECURITY)
Carry your sensitive voice and data securely to the field using 256 AES encryption.

LOCATION, PRESENCE & GEOFENCING
Track first responders' position and Status, battery level and signal strength to manage incident and enhance situational awareness in the field and at the command center.

COMMAND & CONTROL AND MULTIMEDIA WEB DISPATCH
Instruct, dispatch and monitor your field operatives from within a map interface to broadcast multimedia content, manage geo-fences, and track historial locatioins.

ADD-ONS

SECURE VoIP (Coming soon)
Allows to establish half full duplex communications with high security assurance.

WHITEBOARDING: GROUP COLLABORATION
Bring officers together and quickly plan an effective response by creating ad-hoc groups with tactical and whiteboard capabilities. Don't just share data, share context and enable intelligence.

EXPAND WITH COMPLEMENTARY SOLUTIONS

Based on your performance and capacity needs, hardware and additional software solutions can be added LEX; P25; ISSI; Wireless Interop gateway; CommandCentral Vault, Aware, Inform; PremierOne suite.
